National PTA Reflections Arts in Education Luncheon

Saturday, June 22, 2013
Cincinnati, Ohio
ALL children deserve a QUALITY arts education.

Since 1969, the National PTA has engaged millions of students through its Reflections Program by inspiring them to reflect on a specific theme and create original artwork. Students are recognized for bringing the theme to life through the arts; specifically dance choreography, film production, music composition, literature, photography, and visual arts. Reflections participation is celebrated across the country and in American schools overseas.
