Congressman Lou Barletta
115 Cannon House Office Building
Washington, DC 20510

Congressman Mark DeSaulnier
327 Cannon Office Building
Washington, DC 20510

Dear Congressmen Barletta and DeSaulnier:

We write to express our strong support for the **School Food Modernization Act**. We appreciate your leadership in advancing this important legislation.

As the legislation you have sponsored recognizes, American schools are actively working to provide increasingly healthy and appealing meal offerings, but too many school kitchens were built decades ago without adequate capacity for procuring, storing, refrigerating, preparing and serving the foods they'd like to offer today. Many schools need improved equipment or infrastructure for activities such as baking, cooling and scratch cooking using local ingredients. In addition, making changes to school meals requires increased training and technical assistance that is often not accessible to the school nutrition workforce.

The School Food Modernization Act gives school districts and food service administrators the tools and resources they need to prepare meals that meet updated nutrition standards and provide wholesome, delicious meals that children will enjoy. The bill provides loan guarantees for kitchen infrastructure and equipment upgrades, authorizes grants for small but critical equipment purchases, and supports innovative training opportunities to strengthen the school food service workforce. This legislation is particularly important because the Centers for Disease Control and Prevention (CDC) estimate that as many as one-third of U.S. students are already overweight or obese putting them at increased risk for serious lifelong diseases. We know that American children spend more time in school than anywhere outside of their homes, and the choices they make during the school day can influence their health over a lifetime. Now more than ever, it is vital to help our schools provide healthy choices for all children.

We applaud your efforts on behalf of America's school children, and we look forward to working with you to help advance this important legislative initiative.

Sincerely yours,
