Tips for Building & Joining Coalitions
National PTA Coalition Checklist

- **Identify the Unifying Issue**
  - Coalitions tend to be more effective when they focus on a specific issue so that all organizations involved have a clear understanding of what the policy goal is and what they are advocating for.
  - Make sure that you have a clear understanding of your PTA's position on certain issues and the limitations to supporting those issues.

- **Be Mindful of Other Organizations in the Coalition**
  - Research the other organizations joining the coalition. What are their positions on other issue areas? Are they a reputable organization? How well do other organizations, the community and policy makers get along?
  - Determine if the coalition will be more effective with a few active organizations or a broader group of organizations showing their support.

- **Determine Your Level of Engagement in the Coalition**
  - Is the coalition's main issue a priority issue area that PTA should be seen leading on and taking a leadership role in the coalition? Or is the issue a secondary concern that PTA should support by being a member of the coalition and sign on to coalition letters?
  - In deciding your PTA's engagement level consider your PTA's capacity, level of involvement and cost to joining the coalition. Within your PTA make sure you and PTA leadership have a clear understanding of what you are committing to as part of the coalition.

- **Establish a Mission and Goals for the Coalition**
  - As a group you should decide what you would like to accomplish as a coalition over a specified amount of time.
  - All participants should have a clear understanding of what the coalition is setting out to achieve at the end and the role each coalition member will be taking in the coalition.

- **Create Coalition Guidelines for Advocacy**
  - How will decisions be made on behalf of the coalition and how will the organizations involved in the coalition be informed about decisions?
  - Develop an operating structure that is inclusive of all types of organizations and approval processes.

- **Advocate to Ensure Every Child Reaches Their Full Potential**
  - Establish clear parameters for what the coalition will do (e.g. schedule meetings, write sign on letters, host public events).
