FIREARMS

Given the history and tradition of strong support for the safety and protection of children and youth, the National PTA supports federal restrictions on firearms that would:

• require, prior to purchasing a firearm, a waiting period and background check to screen out illegal firearm purchasers such as convicted felons and drug-related offenders;
• outlaw military-style semi-automatic assault weapons; and
• require knowledge of appropriate firearms use and safety practices.

Military-style semi-automatic assault weapons would include those firearms which:

• were originally designed for military or law enforcement purposes; and for fully automatic purposes;
• are designed to be fired in full or semi-automatic mode in combat;
• are designed to accommodate a large capacity combat magazine.

These weapons include:

INTRATEC TEC-9, Street Sweeper and Striker 12, Colt AR-15 and CAR-15, MAC 10 and MAC 11 in addition to five firearms that are in the government’s ban, including Norinco, Mitchell, and Poly Technologies Automat Kalashnikov S (all models), Action Arms Israeli Military Industries UZI and Galil, Fabrique Nationale FN/FAL; FN/LAR, and FNC, Steyr AUG.
