Description and Proposal Requirements

2023 PTA Advocacy Spotlight

Description:

Every day, state, regional and local PTAs across the country go above and beyond to advocate for children. Their efforts have made real, tangible improvements for children, families, and communities. At the 2023 Virtual Legislative Conference, we want to take the opportunity to showcase their amazing efforts – and learn from them. This is an opportunity to share stories of an issue that has inspired you to take action for kids!

We are currently accepting proposals. Additional information and a proposal form can be found [here](#). All Spotlights will be pre-recorded and shown at our Virtual Legislative Conference March 7 and 8, 2023.

Proposal Requirements:

This [proposal](#) is open to any PTA member at any level affiliated with a unit in good standing. Applications must be received by **November 30, 2022 at 11:59 pm ET**. Proposals must be started and completed in one session. There is no save functionality.

Presentations should include strategies and tactics that other PTAs could emulate and should focus on issues consistent National PTA’s position statements and resolutions with preference given to presentations that focus on advocating for school safety and preparedness, family engagement, welcoming and supportive schools, or digital safety and online learning.

Presentations should be 40 minutes long, including time for Q and A. All applications will be reviewed by the National PTA Legislation Committee and Government Affairs Staff. National PTA may provide feedback on your submission to improve the delivery for our attendees’ needs, or we may combine your submission with another presentation submission to create one workshop.

All applicants will receive notification of whether their submission was accepted in December. PTA Spotlight presentations that are selected will be recorded in January 2023.

Please send an email to legcon@pta.org with any questions or concerns.
