Amend the resolution “Sale of Tobacco Products to Minors” as follows:

Whereas, The Centers for Disease Control states that nicotine dependence is the most common form of chemical dependence in the United States. Commercial tobacco, responsible for one of every five deaths, is the foremost preventable cause of premature death in America, and Tobacco use is the most common form of drug addition, causing disease and one of every four deaths in the United States; and

Whereas, Ninety percent of smokers began smoking as minors; sixty percent by the age of 14; and

Whereas, Approximately 4,000 American children become tobacco users every day, with 13 as the average age they begin smoking and 10 for using snuff; and

Whereas, Minors Individuals under the age of 21 have no difficulty purchasing tobacco products, and

Whereas, The Centers for Disease Control reports that raising the minimum age for sale of tobacco products to 21 years has been shown to reduce and prevent youth tobacco use. The National Academy of Medicine has concluded that raising the tobacco age to 21 will have a substantial positive impact on public health and save lives. Additionally, 75% of U.S. adults favor raising the Minimum Legal Sales Age for all tobacco products to 21, therefore be it Many states have laws prohibiting the sale of tobacco products to minors; therefore be it

Resolved, That the National PTA urge its constituent bodies associations to seek the cooperation of their local law enforcement agencies to enforce existing laws regulating the sale of tobacco products to minors individuals under the age of 21; and be it further

Resolved, That the National PTA urge its constituent bodies associations to encourage state governments that do not currently have laws relating to limiting the sale of tobacco products to minors individuals under the age of 21 to enact such laws; and be it further

Resolved, That the National PTA encourage its constituent bodies associations to seek state legislation that penalizes merchants who violate laws relating to the sale of tobacco products to minors individuals under the age of 21 either through retail sales or from vending machines and adults who furnish or buy tobacco products for minors individuals under the age of 21; and be it further

Resolved, That the National PTA urge its constituent bodies associations to seek the support of the business community in complying with the existing laws and appeal to them to support the well-being of children and young adults.

Adopted: by the 1989 Convention Delegates
Reviewed: by the 1993, 1994 and 1999 Convention Resolutions Committee
Rationale for the Amendments to the Resolution:

This resolution is being amended to enable National PTA and its constituent associations to address the growing concern over vaping and other forms of tobacco products which are targeted to individuals under the age of 21. By removing the terms “minors” and “youth” from the previously adopted resolution, we will be able to advocate for the prohibition of such harmful products for all individuals not yet legally considered adults.
