

National PTA Proposed Dues Rate

Motion:

The National PTA dues rate will be \$4.00, with an implementation date of October 1, 2023.

Rationale:

This motion, submitted by the National PTA Board of Directors, will ensure National PTA has the resources to support its mission and continue its long legacy of raising its unified voice to urge decision makers to take action on the issues facing our children. Every dollar of membership dues that is sent to National PTA covers the cost of many fundamental services supporting PTAs across the country. With the new proposed dues rate, the National PTA will be able to continue and increase the needed and expected level of service to our leaders and school communities and will also cover:

- Recouping revenue lost due to inflation from 2011-2022
- Training and support for PTA leaders as you run your PTA
- Hosting national in-person meetings
