

A FAMILY GUIDE TO ANNUAL STATE TESTS IN TENNESSEE: One of Many Measures of Student Learning

There are many ways to measure academic performance, and annual state tests are only one of them. These tests are not meant to tell the whole story. They are meant to be combined with other measures, including teacher feedback, classwork and projects, and report card grades. Together, these measures can give families a more complete picture of a student's performance so they can better support learning at home and advocate for their child.

State Assessments 101

The Every Student Succeeds Act or ESSA, requires students to take state tests in reading and math every year in third through eighth grade and once in high school. In Tennessee, students in third through eighth grade take the TNReady in English language arts, math and science. Students in sixth through eighth grade take TNReady in social studies. High school students take end-of-course tests in English 1 and 2, Algebra 1 and 2, Geometry, Biology and U.S. History.

Studies show that third grade is a critical year for students to learn fundamental reading skills that will help them understand and think critically. As a result, Tennessee requires all third grade students to achieve a score in the approaching range (Level 2) in ELA on the TNReady to move onto fourth grade. If a student does not score in that range, the school will provide additional support and interventions so the student can improve critical reading skills.

A Focus on Grade Level Skills

Unlike other tests, TNReady is focused on grade level material and is aligned to the state standards. The test questions match what students do and learn in the classroom every day throughout the year, which are the grade level skills that are most important for students to learn in order to move on to more challenging content. TNReady is taken with paper and pencil. The test includes a variety of questions including traditional multiple choice, as well as questions that ask students to analyze text and write well developed essays.

Grade 6: Math

A piece of wood is $\frac{6}{8}$ foot long. It needs to be cut into pieces that are $\frac{1}{4}$ foot long each. How many pieces will there be?

- A 1
- B 2
- C 3
- D 4

Grade 3: ELA

The following item has two parts. Answer Part A and then answer Part B.

Part A

Which sentence **best** states the author's point of view about hurricanes?

- A They are dangerous but necessary.
- B They are mainly positive forces.
- C They are fun to watch.
- D They are wild and unsafe.

Part B

Which detail from the passage **best** supports the answer to Part A?

- A "...stretches 300 miles (483 km) across." (paragraph 1)
- B "...usually 100 to 200 miles per hour (163 to 322 kph)." (paragraph 1)
- C "...forms a ring around the eye." (paragraph 2)
- D "...crops would die without it." (paragraph 5)

Useful Information for All

FAMILIES: Understanding Grade Level Performance

The TNReady report gives families information on how well their child performed on different sets of skills in each subject. Families can use this information to identify where their child is doing well and where they may need support or practice. This helps families better support learning at home. It can also help them start meaningful conversations with teachers, set goals for each student's areas of improvement and identify resources and strategies that can be used at home and in school to help students make progress.

Questions to Ask the Teacher about Your Child's TNReady Report:

- What does this mean about my child's learning?
- Is my child on grade level?
- Where does my child need more support or improvement?
- What short-term learning goals should my child meet to show progress?
- How can I support learning at home?

TEACHERS: Informing Instruction

Students take different types of tests throughout the school year. Some students take benchmark or diagnostic tests, such as MAP Growth or i-Ready. These are taken several times a year and measure mastery of important concepts and skills in reading and math. Students take a test at the beginning of the year to identify their “starting point” and again throughout the year to measure their progress. Benchmark tests help teachers identify and address learning gaps early on so students can stay on track to meet grade level expectations. While TNReady is only given at the end of the school year, it is one way of showing how much progress students made from the beginning of the year and how well they met grade level expectations.

While teachers use TNReady results to understand each student's unique needs and support them in the areas where they need extra help, they also help teachers to improve their instruction. Teachers can use the results to look for trends in their students' learning to see what skills or concepts students learned and what content they struggled with. This helps teachers identify what they taught effectively and where they need to improve or change their instructional strategies.

SCHOOL & DISTRICT LEADERS: Informing Decisions

TNReady results are critical for school and district leaders to make informed decisions about schools and students. School and district level test scores show leaders how students across a school or district are performing and indicate if a certain group of students or schools need more support. This allows them to target additional support or resources to help those schools improve. District leaders can also use TNReady scores to understand what strategies and changes are working.

STATE LEADERS: Helping Schools Improve

State leaders use TNReady results to identify schools and districts that need more support and resources. They identify the schools with the lowest performance in the state, as well as schools with certain groups of students that performed much lower on the test than the rest of the students in that school. These schools receive additional funding and resources from the state to support students and teachers. For example, schools may hire more teachers or tutors or they may purchase additional instructional materials and programs, depending on the needs of their students.

Where Can I Go for More Information?

- For more information, visit TN.gov/Education/Assessment/TNReady/TNReady-Parent-Resources.html
- To see sample ELA questions, visit TN.gov/Education/Assessment/TNReady/TNReady-ELA.html
