Directions

Read through each scenario as a family. Then, reflect on your own privacy sheet and discuss your responses to each of the following questions.

1. Sinead is thirteen years old, and she just started to explore singing. She feels that she is not that great at it yet, but she would like to share her new passion with her friends and get their input on it. She is considering adding some videos of her singing some of her favorite songs on a social media platform.

a. What type of platform (if any) would you recommend?

b. What do you think would be the ideal privacy settings for that platform? Please explain why.

2. Reza is sixteen years old, and he is passionate about cooking and creating new recipes. He has worked on several chicken dishes that he is very excited about, and he would love to share the recipes with his friends and other people interested in cooking.
