PTA FOR YOUR CHILD

MEMBERSHIP CAMPAIGN TOOLKIT
Hello!

We are excited to introduce you to PTA’s new membership campaign. In the following pages, we will outline new messaging, collateral materials and templates, as well as ideas for implementing the campaign. We hope you find these resources engaging, impactful, and fun!

Today, PTA’s role is more important than ever in connecting parents, teachers and administrators and supporting critical school needs. Our goal with this campaign is to make PTA’s often invisible work, visible, by highlighting the value and impact of PTA on individual children and emphasizing that membership involves as much or as little time as you have to offer.

This campaign toolkit outlines how to best communicate about the value of PTA membership. We also know that successful membership recruitment activities and events vary from school to school. This campaign is built to bolster your existing membership recruitment work with consistent messaging and customizable, dynamic visuals to use in emails, on your website and on social media channels.

We cannot thank you enough for the work you do on behalf of PTA. It is our sincere hope and belief that this new campaign will increase membership and allow you to build on the important work you are doing!

If you have any questions about the membership campaign or the information included in this toolkit, please contact us at Communications@PTA.org.

Purpose of the Campaign

While the role of PTA has evolved since its founding more than 120 years ago, its basic function still remains the same – to support, advocate for and connect parents and teachers to ensure our children reach their full potential. Yet joining PTA is not always seen as necessary or essential for parents of school-aged children. To learn more about attitudes and beliefs about PTA and membership, we conducted surveys and interviews with current and prospective members. From this research, we identified the following top insights that helped guide our campaign development:

- **No Explicit Ask to Join:** That’s right – potential members said a top barrier to joining PTA was simply that they were never asked to join, but they were frequently asked to support PTA fundraisers.

- **Do Not Understand the Value of PTA:** Current members had difficulty explaining the role of PTA and how it supports education and curriculum, serves as an important advocate for children, or how it builds school community. They often see PTA as a social club and did not understand the role of PTA, the community it builds between the school and families or see how their dues or fundraising activities directly impacted their child.

- **Confusion About What PTA Membership Means:** Our research found that people were not even sure if they were members! Specifically, they felt that PTA membership is confusing, inconsistent and not universally understood – and most often interpreted it as time consuming with volunteering and attending meetings being requirements of membership.

- **Not Welcoming to All Families:** Parents would like to see a more diverse PTA membership base, representative of our growing multicultural communities to reflect an inclusive and welcoming school community.

- **Everyone is Interested, Once they Understand the Role of PTA:** The research also uncovered that particular audiences – including multicultural families, younger parents and fathers – are especially interested in PTA’s impact and getting involved in their child’s education.

With the research findings as our foundation, we developed a membership campaign that:

- Concisely articulates the impact and value of PTA as the foundation for their child’s success
- Clearly explains what PTA membership is and isn’t
- Shows that PTA is for EVERYONE who is involved with your school – parents, caregivers, grandparents, teachers and the broader community
- Provides a variety of tools and resources that make the ask to join PTA clear and direct
Theme & Approach

To achieve these goals, we developed a creative campaign designed to motivate and drive PTA membership – both new members and membership renewals. Our messaging and visuals all incorporate the campaign theme that was constructed to shift perceptions away from “PTA is extra” to “PTA is essential” by clearly showing how PTA specifically helps THEIR child succeed. With that, we introduce PTA’s membership theme and approach.

PTA is no longer a noun. It’s a verb – an action plan working to support your child’s success.

It’s an invitation to every family in every school to participate because we can do more together than we can do apart.

There’s no wrong way to PTA – just as long as you’re doing it for your child. You can give money by joining and donating. You can volunteer time and effort. Or you can help grow our strength and presence at the local, state, or national level as an advocate for improving your child’s education.

Now, how do you communicate this? What does this campaign actually look like? Let us show you how to PTA For Your Child because there is no wrong way to PTA!

P•T•A
VERB /pee-tee-ay/
TO SUPPORT YOUR CHILD’S SUCCESS IN ONE OR MULTIPLE WAYS:
1) To invest in your child’s success.
2) To volunteer for your child’s success.
3) To advocate for your child’s success.
Messaging

The messaging outlined below will serve as your guide for how to speak about the value of PTA membership and should be used in all membership communications.

Membership Campaign Theme

This is a clear, concise phrase that can be used to motivate and recruit new members and reinforce the value of PTA membership.

PTA For Your Child

Overarching Message

The overarching message serves as the basis for all of the campaign messaging. An effective positioning statement provides a strong, emotive overview of the purpose of the campaign, why PTA is important and highlights key issues or differentiators. While it does not need to be used verbatim in all communications, it is useful to inform all of your membership campaign communications.

PTA to support your child’s potential.

PTA offers all parents and caregivers the opportunity to be engaged in their child’s potential. Being a member of PTA means that you are part of a powerful association and action plan that is focused on programs and initiatives that strengthen your child’s education and the family-school partnership.

However you PTA, it’s all an investment in your child. PTA to support your child’s teachers and curriculum. PTA to advocate on the issues impacting your child and affect change at the local, state and national levels. PTA to build a stronger, more diverse and inclusive school community.

There’s no wrong way to PTA and we invite every family to participate, because we can do more together than apart. How do you PTA?

Elevator Speech

The elevator speech is a clear, concise articulation of the value of PTA. This takes the messaging and puts it into simple, direct terms. This provides an easy answer to “Why should I join PTA?”

PTA membership and dues support your child by funding essential educational and curriculum needs; advocating on behalf of children and educators at the local, state and national levels; and building an inclusive school community for all families. I invite you to join PTA for your child because increasing our membership, even by one, makes it possible to provide important educational resources, speak up on important issues and create a stronger school community. There is no wrong or right way to be involved – anything you can give, whether it’s time or money, will support your child’s potential.
Supporting Themes and Proof Points

The supporting themes and corresponding messages elaborate on the overarching message and highlight the three areas that define PTA and what it supports: education, advocacy and community. Focusing PTA’s supporting themes and messages around three key areas is critical to reshaping the current perceptions of PTA. Along with each supporting theme and message, we have developed proof points that are supporting facts for each theme and literally serve as the proof.

We have provided National PTA proof points, but we ask that you also develop your own specific proof points. When selecting proof points, keep in mind the following:
