Introducing Classroom Registry

**Support your favorite teacher
as they prepare their classrooms.**

Every year teachers refresh their classrooms for your child's educational experience. Often, they foot the bill for those necessities & extras to make the learning environment special. We've set up a way for teachers to build a registry for those must-have & nice-to-have items.

Here's how it works

Teachers build a registry at walmart.com/classroomregistry or in the Walmart app. Parents & students search for the registry & buy items on the teacher's list. It's as easy as that.

Build or search
for a registry
